Handlungsgrundlage	§Section 49 (1) sentence 1 WHG
Teaser	Do you want to carry out drilling or other earthworks that could affect the movement or quality of the groundwater? Then you must notify the competent authority in advance.
Volltext	<p>If you want to carry out so-called earth excavations, you must notify the competent authority. Earth excavations are boreholes or other earthworks that reach so deep into the ground that they can affect the movement or composition of the groundwater.</p> <p>Notification is required for the following projects:</p> <ul style="list-style-type: none"> • Exploration of old mines or cavities • exploration of contaminated sites (except groundwater measuring points) • wells • Geochemical investigation • Geophysical investigation • Geothermal exploration (other) • Groundwater measuring point (except wells) • Engineering geological investigation or subsoil investigation • Mapping (except base drilling) • Raw material exploration drilling • Other exploration purposes • Geothermal use with groundwater heat pumps <p>Each borehole provides data for the evaluation of the subsoil at the respective location. The notification enables the responsible authorities to gain an impression of the drilling project and the drill cuttings produced on site. The authorities can take additional</p>
