Sachverhalt

Ordinance Approval of steam boiler systems

- Anyone wishing to construct or operate a category IV steam boiler system or to make changes to the design or mode of operation requires a permit.
- Category IV steam boiler installations include heated pressure equipment at risk of overheating for the production of steam or hot water at a temperature of more than 110 degrees Celsius.
- These are "systems requiring monitoring" that must be assembled, installed and operated according to the state of the art.
- The permit can: granted subject to conditions, limited for a limited period of time and be subject to conditions.
- Application: informally in writing or electronically
- An application for partial permission is possible.
- responsible: Occupational health and safety authority or trade supervisory authority
