Teaser	When your European Firearms Pass expires, you will need to renew it.
Volltext	The European Firearms Pass allows holders of firearms possession cards to temporarily carry weapons and ammunition when visiting another EU Member State or Schengen State. It only allows a short-term, cross-border transport of your weapons for a purpose that is covered by your firearms needs (e.g. hunting trip, participation in shooting events). The European Firearms Pass is valid for 5 years and you can have it renewed twice for 5 years each. You are allowed to carry the appropriate ammunition for the registered weapons, but only as much as you expect to need. Experience has shown that as a hunter you need less ammunition than as a sport shooter. Not every weapon registered in the European Firearms Pass may automatically be taken abroad. The respective firearms regulations of the host state and all states that are passed through must be observed. Appropriate permits from countries to be visited must be obtained in advance. Therefore, please inform yourself comprehensively about the weapons regulations applicable in the respective states before your trip. In addition to the European Firearms Pass, you must carry an identity document and the weapon
