## Modul

## Sachverhalt

### Voraussetzungen

The specimens must:

- have been acquired in or imported into the Community before the provisions relating to the species listed in Appendix I to the Convention or in Annex C 1 to Regulation (EEC) No 3626/82 or in Annex A to this Regulation became applicable to the specimens concerned, or
- have been processed into objects acquired more than 50 years ago, or
- have been introduced into the Community in accordance with this Regulation and are used for purposes not detrimental to the survival of the species concerned, or
- be captive-born and bred specimens of an animal species or artificially propagated specimens of a plant species, or parts or derivatives thereof, or
- in exceptional circumstances, for the advancement of science or for essential biomedical purposes in accordance with Council Directive 86/609/EEC of November 24, 1986 on the approximation of laws, regulations and administrative provisions of the Member States regarding the protection of animals intended for human consumption. (f) are used for breeding and reproduction purposes which contribute to the conservation of the species concerned; or
- for research or educational purposes aimed at the protection or conservation of the species; or
- originate from a Member State and have been removed from their natural habitat in accordance with the legislation of that Member State.
- The derogation must be in accordance with other Community legislation on the conservation of wild fauna and flora species

### Kosten

Depends on the respective fee schedule of the country

### Verfahrensablauf

- You can apply for a marketing permit in writing (also by e-mail) or online from the competent authority.
- Fill out the application form, sign it and submit it together with the required documents (proof of origin, photo documentation, breeding certificates, import permits, expert reports, etc.).
- The application and the documents will be checked. If the requirements are met, a certificate of exemption can be issued.
