Teaser	You must notify the competent authority of groundwater abstraction for domestic use, farm operations, watering livestock or in small quantities for a temporary purpose.
Volltext	Groundwater abstraction for domestic use, farm operations, watering livestock or in small quantities for a temporary purpose does not require a permit under water law. It merely needs to be reported to the authorities in good time before it begins.
Erforderliche Unterlagen	The documents you need for your application vary depending on the type and scope of your project. In a preliminary discussion with the responsible water authority, you can clarify which documents are required in your case. As a rule, several or all of the following documents are required: • Explanatory report • General site plan as a topographical map in which the existing or planned facility is shown in color • Current cadastral site plan in which the existing or planned installation is shown in color • Information on the type of installation • schematic representation of the facility in plan and section • accompanying nature conservation planning, including entry in the compensation area register for new facilities • If applicable: Technical contribution to the Water Framework Directive • Proof of expertise

Modul	Sachverhalt
