Before assigning non-sovereign tasks, you should check that the chimney sweep in question is registered in the chimney sweep register of the Federal Office of Economics and Export Control. You can find out which work is due on your heating system and when it is due in the chimney notice, which your authorized district chimney sweep will provide you with as part of the chimney inspection.

Ansprechpunkt	You can find out who your responsible chimney sweep is from the administration of your district, independent city or special status city. Since 2009, there is no longer an obligation to have all tasks on your system carried out exclusively by the responsible district chimney sweep (authorized district chimney sweep). Your district chimney sweep is still responsible for inspecting your combustion system and carrying out the fireplace inspection. Since January 2013, you have been free to choose your own chimney sweep for the non-sovereign tasks (sweeping and checking your combustion system and measuring flue gas values).
