Verfahrensablauf	<p>Before you submit the application, you must already have a license to practice as a dentist or a professional permit in Germany.</p> <p>You apply for recognition of your further training title as a specialist dentist at the relevant state dental association:</p> <ul style="list-style-type: none"> First, you submit your application and the required documents to the dental association of the federal state in which you wish to work. You may be asked to submit any missing documents. The automatic recognition procedure often applies. This means that your professional qualification will be recognized without an individual equivalence check. If you started your training before your country of training joined the EU/EEA, you must prove that your professional qualification meets the minimum EU standards ("certificate of conformity"). This will be certified by the competent authority in your country of training. If your professional qualification does not meet the minimum standards, you must provide evidence of your professional practice. To do this, you must have worked in the profession in your country of origin for an uninterrupted period of 3 years in the 5 years prior to submitting your application. If your professional qualification is not automatically recognized, your training must be checked individually. The competent authority will then check whether your professional qualification is equivalent. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification. If your qualification as a specialist dentist is recognized, you can work in the profession in Germany. You will receive a notification.

Sachverhalt

If significant differences are found, the equivalence of your qualification as a specialist dentist will not be certified:

- You will receive a statement of reasons.
- You can take an aptitude test to prove the missing knowledge.
- If you successfully pass the aptitude test, you will receive recognition. You may then use the title "Fachzahnärztin" or "Fachzahnarzt" for your specialization

You can take legal action against the decision of the competent authority within a certain period of time (for example, by lodging an objection). The decision will then be reviewed. Details can be found in the information on legal remedies at the end of your decision. It is best to speak to the responsible office first before taking legal action against the decision.
