Teaser	
Volltext	In the case of life-threatening injured or ill persons and persons who are likely to suffer serious damage to their health if they do not receive immediate medical care, emergency rescue includes carrying out the necessary medical measures on the scene, making these persons fit for transport and, if necessary, placing them under professional care with rescue equipment equipped for further care. treatment facility. Emergency rescue is mainly provided by the ground-based rescue service and supplemented by the country's air ambulance. Ensuring that the population is supplied with emergency rescue services in line with their needs is the responsibility of the competent authority.
Erforderliche Unterlagen	Documents may be required. Please contact the competent authority.
Voraussetzungen	• Existence of the factual emergency rescue requirements
Kosten	The providers of the rescue service charge fees for the various services.
