Teaser	<p>The professional title of architect may only be used by those who are entered in the list of architects of a chamber of architects in the specialist field.</p> <p>Registration may be based on a special distinction in the field of architecture.</p>
Volltext	<p>The professional title "architect" or "architect" may only be used by those who are entered under this respective title in the list of architects of the Lower Saxony Chamber of Architects, the corresponding list in another federal state or the list of external service providers. The same applies to word combinations with the professional title or similar designations. The relevant regulations can be found in particular in Section 1 of the Lower Saxony Architects Act (NArchG).</p> <p>In this way, it is ensured for the protection of consumers that only sufficiently qualified planners practice the profession and that they comply with certain professional rules. However, such protection of the professional title makes it necessary for the Chamber of Architects to demand proof of qualification from those to be registered. The qualification can be proven, among other things, by the fact that the applicant has distinguished himself through the quality</p>
