Volltext	<p>One of the following protected professional titles may only be used by those who are entered under the respective title in the list of architects of the Chamber of Architects of Lower Saxony, the corresponding directory in another federal state or the list of external service providers:</p> <ul style="list-style-type: none"> • Interior Designer • Landscape Architect • Urban planner <p>The same applies to word combinations with one of the professional titles or similar designations. The relevant regulations can be found in particular in § 1 NArchTG.</p> <p>In order to protect consumers, this ensures that only sufficiently qualified persons pursue the profession under the professional title and that they comply with certain professional rules. However, such protection of the professional title requires the Chamber of Architects to require the persons to be registered to provide proof of their qualifications, usually by</p> <ul style="list-style-type: none"> - the completion of at least 3 years of study,

Modul

Sachverhalt

- the completion of at least 2 years of professional experience

- attendance of certain training courses.

By registering, you become a member of the Chamber.

Type of employment

The entry in the list of architects takes place depending on your activity in one of the following four types of employment:

- self-employed
- active in the construction industry
- employed
- civil servant

Erforderliche Unterlagen

The application must be accompanied by documents relating to the following areas:

- Evidence of formal qualifications
- Foreign applicants: copy of identity card or passport as proof of nationality
- Practical work
- Own work and certificates
- Compulsory training
- Type of employment
- For freelance applicants: proof of professional liability insurance

All documents in non-German must be accompanied by a translation, which must be confirmed by a publicly appointed and sworn translator.

Important note on registration:

Registration presupposes that the applicant has a domicile or a professional establishment in Lower Saxony or pursues the profession wholly or partially, but not only temporarily and occasionally, in Lower Saxony (§ 5 para. 1 no. 1 NArchG).

Please have all the necessary documents ready for the

Modul

Sachverhalt

electronic application. Without the complete documentation, you will not be able to complete the electronic application process and submit your application.

Depending on whether you are registering with a Chamber of Architects for the first time or whether you are applying for re-registration or registration in Lower Saxony after an existing registration in another federal state, different proofs are required. Therefore, the two variants are presented separately in the following with regard to the documents to be provided.

Documents required for a first registration:

- Evidence of formal qualifications

Copies of the diploma certificate and the diploma certificate, if applicable, copy of the Bachelor's and Master's certificates and a copy of the respective degree certificate as well as the respective Diploma Supplement as proof of studies in the requested field of study with a standard period of study of at least three years of study.

Applicants with evidence of formal qualifications from a member state of the EU or another state party to the Agreement on the European Economic Area or a country treated as such by an agreement:

Certificate from the competent authority of the home country on the conformity of the training with the European Directive on the recognition of professional qualifications (BARL - 2005/36/EC)

In the case of studying abroad outside the EU, the EEA or equivalent countries:

Copies of graduation certificates and certificates. The documents must state the standard duration of study and the training content with the respective temporal scopes.

Note: A list of foreign universities recognised in the Federal Republic of Germany can be found on the

Modul

Sachverhalt

Internet (www.anabin.de). If you have any questions about the equivalence of foreign degrees, you can also contact the Central Office for Foreign Education (ZAB: www.kmk.org). It is responsible for the assessment of foreign qualifications in Germany. (Postal address: Secretariat of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, Taubenstraße 10, 10117 Berlin).

- Foreign applicants:

Copy of identity card or passport as proof of nationality

- Practical work

Certificates from the employer(s) or confirmations from clients or authorities about at least 2 years of full-time work experience – correspondingly longer part-time – in the essential professional tasks according to § 2 Abs. 2 to 6 NArchtG (§ 6 Abs. 3 NArchtG, cf. also the performance profiles of the HOAI).

- Submission of own work and certificates

From the field of interior design, usually at least 2 plans for 3 objects each (design plans – e.g. scale 1 : 100) as well as at least 1 execution plan (scale 1 : 50 or 1 : 20) and 1 detail drawings for one object

from the fields of landscape architecture / urban planning, e.g. object planning, landscape conservation accompanying plans, land use plans, development plans, development, structural, framework or design plans, if necessary also to supplement landscape conservation accompanying plans, landscape and green space plans, landscape framework plans)

If the applicant's involvement (e.g. name abbreviation) is not clearly identifiable from the planning documents, additional confirmation of the participation is required, e.g. by the employer.

- Compulsory training

Modul

Sachverhalt

In order to deepen the focus of the practical professional activity, at least eight one-day training events on specific topics (§ 6 para. 4 NArchtG) must have been attended. One event on the following topics is required:

1. public law principles and procedures for planning and construction,
2. civil law foundations of planning and building,
3. Planning and construction practice
4. Cost-effectiveness of planning and construction.

The remaining four courses can be chosen from the aforementioned topics.

- Type of employment

The type of freelance employment must be proven by a certificate from the tax consultant, the tax office or the office partner(s).

The type of employment employed is proven by a certificate from the employer. Unemployed applicants submit a certificate from the Employment Agency, a copy of the approval decision if applicable.

Civil servant applicants submit a copy of their certificate of appointment and a current certificate from the employer on the nature of the activity.

Applicants active in the construction industry submit a business registration or an excerpt from the commercial register with a list of shareholders.

- For freelance applicants:

Proof of professional liability insurance (cf. § 11 NArchtG)

Documents required for a change of chamber / re-registration:

Modul

Sachverhalt

- Copy of the diploma or bachelor's and master's certificate and copies of the respective degree certificates
- Proof of previous or current registration – copy of the certificate of registration/certificate issued by the respective Chamber of Architects
- Proof of current type of employment – see variant initial registration
- For freelance applicants

Proof of professional liability insurance (cf. § 11 NArchtG)

Voraussetzungen

Conditions for registration

Registration is possible under the following conditions (overview):

- Completion of a course of study corresponding to the field of study with at least 3 years standard duration of study
- Completion of at least 2 years of practical work experience
- Proof of compulsory training
- Residence, professional establishment or place of work in Lower Saxony. For registration in the type of employment "freelance":
- Proof of sufficient professional indemnity insurance

Registration requirements in detail according to §§ 5-7 NArchtG:

§ 5 Conditions for registration

Modul

Sachverhalt

(-1) On application, a professional title pursuant to Paragraph 1(1) and an addition pursuant to Paragraph 10(1) shall be entered in the list of architects who:

1. has a domicile or a professional establishment in Lower Saxony or pursues his profession wholly or partially, but not only temporarily and occasionally, in Lower Saxony and

2. is qualified to perform the professional tasks associated with the professional title in accordance with Paragraph 2(1) to (6).

(2) Entry in the list of architects shall be refused if there are facts showing that the applicant does not have the good repute required for the profession.

Article 6 Qualification on the basis of a degree and a professional experience

(1) The qualification pursuant to § 5 Par. 1 No. 2 is possessed by any person who:

1. has successfully completed a course of study at a German university corresponding to the respective field of study in accordance with the requirements of paragraph 2 and the guidelines on the content of the training (see Annex), or

2. has successfully completed a course of study corresponding to the respective field of study at a foreign university or at another foreign educational institution which is equivalent to a course of study according to number 1,

and has subsequently completed practical work in that field in accordance with the requirements of paragraphs 3 and 4.

(2) 1 In the field of architecture, the standard period of study must be at least four academic years.

(3) 1 The practical professional activity must have been completed full-time for at least two years, or

Modul

Sachverhalt

correspondingly longer part-time, have built on the knowledge, skills and competences acquired during the course of study in the respective field of study and have enabled the acquisition of practical professional knowledge, skills and competences in the essential parts of the respective professional tasks in accordance with Section 2 para. 1 to 6. 2 It may also have been completed abroad. 3 Proof of the practical professional activity must be provided by submission of own work and by documents showing the duration of the activity and the practical professional knowledge, skills and competences acquired in the process.

(4) 1 As part of the practical professional activity, at least eight one-day training courses on the following topics must have been attended:

1. public law principles and procedures for planning and construction,
2. civil law foundations of planning and building,
3. planning and construction practice and
4. Cost-effectiveness of planning and construction.

2 Registration with the professional title "architect" requires attendance of two events per subject area and registration with a different professional title in accordance with § 1 para. 1 requires attendance of one event per subject area and four other events.

(5) In order to be registered with the professional title "architect", the practical professional activity must also have been completed under the supervision of a member of the profession or a chamber of architects who has supervised that the professional activity complies with paragraph 3 sentence 1. 2 For registration with the professional title "architect", up to one year of practical work may have been completed after completion of a three-year course of study. 3 Details of the contents of the practical professional activity, the requirements for supervision and the documents specified in paragraph 3 sentence 3 may be

Modul

Sachverhalt

regulated by the Chamber of Architects by statute.

Article 7 Competence based on the recognition of a European professional qualification

(1) 1 The qualification under Section 5 (1) no. 2 for registration with the professional title "architect" shall also be possessed by any person who holds evidence of formal qualifications:

1. in accordance with point 5.7.1 of Annex V to Directive 2005/36/EC of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications (OJ 2005, p. EU No. L 255 p. 22; 2007 No. L 271 p. 18; 2008 No. L 93 p. 28; 2009 No. L 33 p. 49; 2014 L 305 p. 115), as last amended by Commission Delegated Decision (EU) 2016/790 of 7 January 2016 (OJ L 305, p. EU No. L 134 p. 135),

2. in accordance with Annex VI to Directive 2005/36/EC, if the training for the profession of architect began at the latest in the academic reference year referred to therein, or

3. pursuant to Article 49(2) of Directive 2005/36/EC

decreed.

(2) 1 The qualification specified in section 5 para. 1 no. 2 shall also be possessed by any person who:

1. possesses one or more evidence of formal qualifications required in another Member State of the European Union, another State party to the Agreement on the European Economic Area or a State treated as such by an agreement, in order to obtain authorisation to take up and pursue the profession there, or

2. has pursued the profession full-time for one year, or for an equivalent period of time, in the preceding ten years in a State referred to in paragraph 1 in which that profession is not regulated, and is in possession of one or more evidence of formal qualifications issued and attested by the competent authority in a State referred to in point 1; that the holder has been prepared for the

Modul

Sachverhalt

exercise of the profession,

if there are no significant differences in accordance with subsection (4) between the professional qualification resulting from the evidence and the professional qualification referred to in Paragraph 6 or if these

differences referred to in paragraph 6 have been compensated. 2 In the case of registration with the professional title "architect", sentence 1 applies only if the requirement of paragraph 1 is not fulfilled for special and exceptional reasons.

(3) The following shall be treated as evidence of formal qualifications pursuant to subsection (2) sentence 1 no. 1:

1. evidence of formal qualifications issued in third countries under the conditions laid down in Article 3(3) of Directive 2005/36/EC;

2. evidence of formal qualifications or sets of evidence of formal qualifications recognised as equivalent in a country referred to in point 1 of the first sentence of paragraph 2 under the conditions laid down in Article 12(1) of Directive 2005/36/EC, and

3. professional qualifications under the conditions laid down in Article 12(2) of Directive 2005/36/EC.

(4) There are significant differences between the proven professional qualification and the professional qualification required under § 6 if:

1. the evidence relates to skills, knowledge and competences which, in terms of content or scope, differ substantially from the skills and knowledge to which the vocational training regulated in Paragraph 6 relates,

2. the relevant skills, knowledge and competences are an essential prerequisite for the exercise of the profession in question, and

Modul

Sachverhalt

3. the person to be registered has not compensated for these differences by means of knowledge, skills and competences acquired in the course of his professional practice or through lifelong learning and recognised by a competent authority.

(5) 1 If registration cannot take place due to substantial differences in accordance with paragraph 4, the Chamber of Architects shall establish the proven professional qualification and the significant differences to the professional qualification required under Section 6 by written decision. 2 The decision shall state the level within the meaning of Article 11 of Directive 2005/36/EC of the proven professional qualification, the level required under Section 6 and the reasons why the substantial differences cannot be compensated for by the qualifications referred to in paragraph 4 no. 3. 3 The notification shall also specify which compensatory measures in accordance with paragraph 6 can be used to compensate for the substantial differences.

(6) 1 For registration with the professional title "architect", the substantial differences specified in paragraph 4 may be compensated for by passing an aptitude test; if the training corresponds to the level of qualification referred to in Article 11(a) of Directive 2005/36/EC, there is no possibility of compensation...

by completing an adaptation period not exceeding three years or passing an aptitude test of the person to be registered, provided that the training corresponds to the level of qualification referred to in Article 11(c), (d) or (e) of Directive 2005/36/EC.

3 If an aptitude test has to be taken in accordance with sentences 1 and 2 nos. 1 and 2, the Chamber of Architects must ensure that the aptitude test can be taken within six months of notification of the decision in accordance with paragraph 5.

Appendix Guidelines on the training content according to § 6 sentence 1 no. 1 NArchTG

A.

Modul

Sachverhalt

General

During the studies, the theoretical and practical aspects of the field of study must be sufficiently emphasized in relation to the respective professional tasks according to § 2 NArchG as well as the necessary professional skills and possible activities.

B.

Fields

II. Department of Interior Design

The study must be mainly focused on interior design. At least 180 credit points must have been earned in the following subject areas. Credit points must have been earned in the individual subject area groups at least in the specified number.

1. Design: 48 credit points

The subject area group includes, for example, the subject areas

Design, detail design, furniture design, building theory, interior lighting, color design, usage planning.

2. Presentation and design: 30 credit points

The subject area group includes, for example, the subject areas

Design basics, descriptive geometry, freehand drawing, painting, plastic design, model making, photography, CAD, presentation, visual communication.

3. General scientific basics of interior design: 12 credit points

The subject area group includes, for example, the subject areas

Architectural history, art history, design theory,

Modul

Sachverhalt

architectural theory, urban planning, political science, sociology, perception.

4. Building and extension construction, structural design: 24 credit points

The subject area group includes, for example, the subject areas

Building construction, structural design, finishing construction, furniture construction, execution and detailed planning.

5. Materials, building physics and building technology: 14 credit points

The subject area group includes, for example, the subject areas

Materials science, building physics, technical construction, room acoustics, lighting technology.

6. Construction Economics and Planning Management: 4 credit points

The subject area group includes, for example, the subject areas

Data processing, surveying, construction survey, construction management, cost and schedule planning, project management.

7. Law and regulations, if applicable as part of subject areas 1, 4, 5 and 6: 6 credit points

The subject area group includes, for example, the subject areas

Planning law, building regulations, private construction and architectural law, procurement law, standards and guidelines.

If a subject area in subject area group 7 is part of subject area group 1, 4, 5 or 6, the minimum number of credit points in subject area group 7 is reduced and

Modul

Sachverhalt

the minimum number of credit points in the other subject area group increases accordingly.

III. Department of Landscape Architecture

The study must be mainly focused on landscape architecture. At least 180 credit points must have been earned in the following subject areas. Credit points must have been earned in the individual subject area groups at least in the specified number.

1. Planning and design in landscape architecture: 48 credit points

The subject area group includes, for example, the subject areas

Basics of landscape architecture, planning methodology, design in landscape architecture, vegetation planning, design in landscape planning.

2. Landscape and environmental planning, regional planning, urban development: 18 credit points

The subject area group includes, for example, the subject areas

Environmental and landscape planning, urban planning, urban planning, regional and regional planning, landscape conservation and development, recreational provision and tourism.

3. Presentation and design: 12 credit points

The subject area group includes, for example, the subject areas

Design basics, freehand drawing, photography, model making, CAD/GIS presentation, visual communication, moderation.

4. General scientific basics of landscape architecture: 6 credit points

The subject area group includes, for example, the

Modul

Sachverhalt

subject areas

History of landscape architecture, garden monument preservation, political science, sociology.

5. Construction and technology in gardening and landscaping: 18 credit points

The subject area group includes, for example, the subject areas

Building materials, vegetation technology, engineering biology, construction technology, execution and detailed planning.

6. Natural Sciences: 18 credit points

The subject area group includes, for example, the subject areas

Botany and vegetation science, soil science and hydrogeology, animal ecology, climatology, ecology.

7. Economics and Planning Management: 6 credit points

The subject area group includes, for example, the subject areas

Data processing, surveying, construction survey, construction management, cost and schedule planning, project management, green space and vegetation management.

8. Law and regulations, if applicable as part of subject areas 1, 2, 5 and 7: 6 credit points

The subject area group includes, for example, the subject areas

Environmental and nature conservation law, planning law, building regulations law private construction and architectural law, procurement law, standards and guidelines.

Modul

Sachverhalt

If a subject area in subject area 8 is part of subject area group 1, 2, 5 or 7, the minimum number of credit points in subject area 8 is reduced and the minimum number of credit points in the other subject area group increases accordingly.

IV. Department of Urban Planning

The study must be mainly focused on urban planning. At least 180 credit points must have been earned in the following subject areas. Credit points must have been earned in the individual subject area groups at least in the specified number.

1. Urban planning project work and urban design

The subject area group includes, for example, the subject areas

Fundamentals of urban planning, urban design, conceptual and strategic planning solutions, urban development planning.

2. Urban planning, urban design, building theory and settlement

The subject area group includes, for example, the subject areas

Urban planning, settlement, housing, building theory, urban design.

In subject areas 1 and 2 together 54 credit points.

3. Theoretical and cultural aspects of urban planning: 12 credit points

The subject area group includes, for example, the subject areas

Planning theory, architectural theory, urban planning history, architectural history, monument preservation.

4. Technical basics:

Modul

Sachverhalt

The subject area group includes, for example, the subject areas

Traffic planning, supply and disposal planning, urban and construction technology.

5. Ecological principles:

The subject area group includes, for example, the subject areas

Urban and landscape ecology, environmental planning and protection.

6. Social science and economic fundamentals:

The subject area group includes, for example, the subject areas

Urban economics, real estate management, land order, sociology, political science.

In subject groups 4, 5 and 6 a total of 30 credit points.

7. Legal basis, instruments and procedures, where appropriate as part of subject areas 1, 2 and 5: 12 credit points

The subject area group includes, for example, the subject areas

Planning law, building regulations, special urban planning law, instruments and procedures of urban planning, spatial planning, state and regional planning, environmental and immission control law, private construction and architectural law.

If a subject area in subject area 7 is part of subject group 1, 2 or 5, the minimum number of credit points in subject area 7 is reduced and the minimum number of credit points in the other subject area group increases accordingly.

8. Methods and techniques of inventory determination and plan presentation:

Modul

Sachverhalt

The subject area group includes, for example, the subject areas

Surveying, construction survey, inventory and evaluation, statistics, data processing, descriptive geometry, CAD/GIS, representation and presentation techniques.

9. Process design and planning management:

The subject area group includes, for example, the subject areas

Planning control, project management, formal and informal participation procedures, visual communication, moderation.

In subject areas 8 and 9 a total of 30 credit points.

Kosten

Registration fee: EUR 285.00

In the case of additional registration in other disciplines, a separate application must be submitted; for this the registration fee is: 250,00 EUR.

Fee for re-registration/change of chamber: EUR 195.00

If you do not use the fully electronic application procedure including the online payment function, please attach a receipt, e.g. printout of the transfer via the payment for online banking, to your registration application. The bank details are:
