Modul

Sachverhalt

- to give its opinion on applications for authorization of a test and to submit that opinion to the competent authority on request.
- to work in-house towards the development and introduction of processes and means which: the pain, suffering and harm to be inflicted, the number of animals used,

to what is absolutely necessary.

- to work in-house towards the development and introduction of processes and means which: examine whether the intended purpose of an animal experiment cannot be achieved by another method or procedure. ensure that pain, suffering or harm to animals is inflicted only to the extent that is indispensable for the intended purpose; in particular, they must not be added for reasons of labour, time or cost savings. ensure that animal testing is carried out only on animals whose species-specific ability to suffer from the effects of testing is less developed than is essential for the intended purpose.
- to advise the persons involved in the conduct of animal experiments with regard to the abovementioned applications, processes and means and to keep them informed of technical and scientific developments in this regard.

Your tasks as an institution or the company:

You have the animal welfare officer

- assist in the performance of his/her tasks in such a way that he/she can fully carry out his/her duties; and
- of all experimental projects.

They must ensure that the animal welfare officer regularly receives further training in the field of animal experiments (subject areas in accordance with Annex 1 Section 3 No. 1-15 TierSchVersV).

They must ensure that the animal welfare officer is free from instructions in the performance of the tasks and is not disadvantaged because of the performance of his/her tasks. The position and powers of the animal
