Sachverhalt

August 2022 - without a residence permit.

If necessary, you can receive government support to cover your living expenses (for example, in the form of housing, cash payments or medical care). If you are dependent on state support (social benefits), you are generally not entitled to reside in a specific place in Germany. Your place of residence is determined by the competent authority (allocation decision). For taking up residence in a place of your choice, weighty reasons must be presented (for example, family relationships).

Before obtaining the residence permit, you must go through the formal registration process for refugees. When registering, your personal data (personal data and fingerprints, photo) will be collected by a German authority.

As a rule, the residence permit is initially issued for two years. Subject to a decision by the Council of the EU, it may be extended for up to a total of three years.

With the residence permit according to § 24 of the Residence Act, you can take up any employment and self-employment by law. Please note that in some professions there are professional access restrictions (for example, in the health sector). You can also start your own business or work freelance.

In addition, you can receive counselling and placement services according to SGB III from the employment agencies.

Children from the age of six have the right, but also the obligation, to attend school.

Verfahrensablauf

The entire procedure is structured as follows:

- Registration: Before obtaining the residence permit, you must go through the formal registration process for refugees. Registration currently takes place, for example, in reception centres or immigration authorities and usually includes your name, date of birth, nationality, current address and a copy of your identity document. In addition, you will be photographed and your fingerprints will be captured.
- Once registered, a certificate (proof of arrival, start-up certificate, fictional certificate or other confirmation) is issued, which can be presented to the competent social welfare office in order to apply for social benefits.
- Distribution to a place of residence when receiving social benefits (allocation): Subsequently, in principle, an allocation decision is issued which obliges you to take up your home and habitual residence in a specific place or region.
- Registration: Registration of your residential address at the responsible registration office at the destination.
- Applying for a residence permit: In order to obtain a residence permit for temporary protection, you must submit an application to the immigration authority responsible for your place of residence. If you already have an assignment decision, this is where you were assigned.
- Find out whether your immigration authority allows you to submit your application online or has a special application form.
- If the application is only possible in person, make an appointment at the Foreigners' Registration Office. In the case of an online application, the Foreigners' Registration Office will contact you upon receipt of your application to make an appointment.
- During the appointment, your identity and documents will be checked (please bring your documents, preferably original, to the appointment).
- If your request is granted, your fingerprints will be taken for the production of an electronic residence permit (eAT card). The Foreigners' Registration Office commissions Bundesdruckerei to produce the eAT card. After completion, you will receive information

and can pick up the residence permit at the responsible office. The eAT card must always be picked up in person.

- If your application is rejected, you will receive a rejection notice.
- The initial registration, distribution, registration with the registration authority and application for the residence permit are separate processes – sometimes they are done together, but this ultimately depends on the local organization. If in doubt, please ask.

Bearbeitungsdauer

approx. 8 weeks. The production of the electronic residence title by Bundesdruckerei takes about 4 to 6 weeks. Due to the very high number of displaced people, it may take longer. This varies from immigration authority to immigration authority. You will receive a fictional certificate for the transitional period. Stay in Germany is thus permitted until the eAT is handed over

Frist

6 - 8 Woche(n)
At the latest 8 weeks before the expiry of the date specified in the Ukraine Residence Transition Ordinance, the application should be received by the Foreigners' Registration Office.

weiterführende Informationen

Hinweise

- Already when an application is submitted, the immigration authorities will issue so-called fictional certificates. These bridge the right of residence until the actual residence permit can be issued and issued. The Foreigners' Registration Office will also enter "gainful employment permitted" in the fictional certificate.
- If there is need, all persons covered by § 24 of the Residence Act currently receive subsistence benefits and medical care.
- The allocation decision shall not be appealed; an action shall not have suspensory effect.
- Inaccurate or incomplete information may slow down the process and be detrimental to you. In an emergency, incorrect or incomplete information that is not completed or corrected in time vis-à-vis the immigration authority may result in the withdrawal of

residence rights already granted, a fine, imprisonment of up to three years or expulsion from the federal territory.

- If you meet the requirements, you can also obtain a residence permit for the purpose of employment or training at the local immigration office.
- As an alternative to applying for a residence permit for temporary protection, every refugee has the opportunity to apply for asylum. It should be noted, however, that applying for a residence permit provides protection more quickly and is associated with advantages (for example, no restriction on taking up work and no obligation to live in initial reception centres).

Rechtsbehelf

- An action may be brought before the competent administrative court against a negative decision of the immigration authority.
- A preliminary procedure (opposition) does not take place in Lower Saxony.
- Detailed information can be found in the rejection decision.
