Volltext	The establishment of a Berufsakademie requires state recognition by the ministry. The introduction of new bachelor's training courses and the substantial modification of existing training courses also require state recognition.
Erforderliche Unterlagen	Before a Bachelor's degree programme is recognised, it must be assessed qualitatively (accreditation) by an institution independent of the state and the Berufsakademie and close to science, which is determined by the competent ministry. For this purpose, an accreditation agency must be agreed with the ministry in advance. After the successful completion of the accreditation, the application for state recognition can be made.
Voraussetzungen	In order to be recognized as a Berufsakademie and to be able to offer Bachelor's degree programs, different requirements must be met. This includes, among other things, that there is a training plan between the Berufsakademie and companies and that a sufficient number of pedagogically suitable teachers as well as the necessary spatial and material equipment is available. In addition, it must be proven that the existence of the Berufsakademie is financially secure for the duration of the training of the respective students according to a financing plan of its sponsor.
Kosten	Abgabe: 50€ - 5.000€

Modul	Sachverhalt
Verfahrensablauf	The first step is to contact the ministry. An essential basis for the state recognition of the Berufsakademie are the planned Bachelor's training courses. Therefore, the next step is the accreditation of the programs. For this purpose, the accreditation agency must be coordinated with the line ministry in advance. After completion of the accreditation procedure, the application for state recognition of the educational institution and the Bachelor's degree courses follows. Essential prerequisites are, in particular, proof of sufficient staffing and financial security of the institution.
Bearbeitungsdauer	Duration (with a fixed time): For accreditation alone, a period of around one year can be expected, including the preparatory measures and the approval procedure, a total of around 1.5-2 years is to be calculated.
Frist	There are no deadlines to be observed at the line ministry.
