you need a state permit.

With this permit, you are allowed to use the professional title "Veterinary Technical Assistant" or "Veterinary Technical Assistant" and work in the profession.

Even if you have a professional qualification from Switzerland, the EU or the EEA, you can obtain a state permit from the competent body (an authority) in Germany.

In order to obtain the permit, you must have your foreign professional qualification recognised. In the recognition procedure, the competent authority compares your professional qualification from abroad with the German professional qualification and checks its equivalence. The equivalence of the professional qualification is an important prerequisite for the issuance of the state permit. In addition to the equivalence of the professional qualification, you must also meet other requirements for the issuance of the permit. Other requirements are, for example, sufficient German language skills and health suitability.

foreign professional qualification and the German professional qualification.

****Possible results of the exam****

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The authority can confirm the result to you in writing. You still have to meet the other requirements and prove your language skills. Then you will receive permission to use the professional title of "Veterinary Technical Assistant" or "Veterinary Technical Assistant". If the competent authority identifies significant differences, you can compensate for the differences through your professional practice and other knowledge and skills (lifelong learning). You must provide proof of professional experience. Knowledge and skills must be certified by an authority in your country of origin. However, this knowledge may not be sufficient. You will not be able to compensate for the essential differences. In this case, your foreign professional qualification will not be recognised. However, the competent authority will tell you the main differences and why you cannot compensate for the significant differences through your professional practice. You will not be allowed to work as a veterinary technical assistant. However, the competent authority will offer you the opportunity to complete an adaptation course or take a knowledge test as a compensatory measure. If you successfully complete this measure, you will be allowed to work in the profession.

****Adaptation period or aptitude test****

If your professional qualification is not equivalent, you can choose between an aptitude test and a maximum three-year adaptation period.

The aptitude test refers to the main differences in your professional qualifications. The aptitude test is an exam interview. The content and the exact procedure of the exam are regulated by law.

If you complete the adaptation period or pass the
