- First, submit your application and the required documents to the Chamber of Pharmacists of the state in which you want to work.
- If necessary, you will be asked to submit missing documents.
- The competent authority will check whether your training is equivalent. The training is equivalent if there are no significant differences between your foreign training and the German continuing education.
- You will receive a notification.

Sachverhalt

- If significant differences are identified, you will not be certified as having the equivalence of your qualification as a specialist pharmacist:
 - You will receive a justification.
 - If necessary, conditions will be imposed. This can be attending seminars, conducting expert discussions with an authorised specialist pharmacist or even providing evidence of certain practical activities.
 - If you pass the exam successfully, you will receive recognition. You may then use the title "specialist pharmacist" for your specialisation.

You can take legal action against the decision of the competent authority within a certain period of time (e.g. lodge an appeal). The decision will then be reviewed. Details on this can be found in the information on legal remedies at the end of your decision. It is best to talk to the competent authority first before taking legal action against the decision.
