Teaser	
Volltext	If at least 25% of the jobs are filled by newly hired severely disabled people when setting up or expanding a company, funding can be considered as an integration project. Integration projects can receive services for construction, expansion, modernization, equipment and special expenses. Integration projects serve to employ severely disabled people of a specific target group on the general labour market, whose integration encounters particular difficulties due to the nature and severity of the disability. Integration projects are long-term, legally and economically independent partnerships or corporations that pursue commercial purposes. They are therefore market-oriented enterprises and not measure-oriented institutions. **Procedure:** The funding must be applied for informally. Upon receipt of the documents, the Integration Office commissions the NBank to examine the sustainable economic viability of the project.
Erforderliche Unterlagen	A meaningful business concept that addresses the following points: • Brief presentation of the project • Products / Services • Market / Competition • Management • Colleague • Marketing • Organization of the company • Financing (income statement / profit and loss)
