Teaser	Here you will find information about studying medicine
Volltext	The study of medicine includes a state examination. Proof of passing the second section of the medical examination is a prerequisite for the license to practice medicine. Medical training includes: • a six-year course of study in medicine at a university or equivalent institution of higher education, which includes a continuous practical training (practical year) of 48 weeks; • training in first aid; • a three-month nursing service, • a clinical traineeship of four months and • the medical examination, which must be taken in two sections. The standard period of study, including the examination period for the second section of the medical examination, is six years and three months. The first section of the medical examination is taken after studying medicine for two years. The second section of the medical examination is taken after four years of medical study, including one practical year after passing the first section of the medical examination.
