and submit further documents. In some cases, it may also be necessary to draw up a medical opinion.

- The authority will then carry out a participation or overall plan procedure to determine your individual need for integration assistance. A participation plan procedure is carried out if several institutions pay the necessary benefit, i.e. the health insurance fund, the Federal Employment Agency, statutory accident insurance, war victims' care providers and war victims' welfare, statutory pension insurance or public youth welfare agencies. An overall plan procedure takes place if only the provider of the integration assistance conducts the interview with you to determine the necessary support.
- The form, which is filled out by the responsible employee during the interview, is called Integrated Participation Plan Brandenburg or "ITP" for short.
- If all documents are available, the competent authority will check on the basis of your information whether or to what extent and type you will receive integration assistance.
- After reviewing your application, you will receive a notification of approval or rejection.
- Once you have received a notification of approval, you can search for a suitable service provider.
