Teaser	You can apply for state funding for the protection, preservation and restoration of monuments.
Volltext	The state grants subsidies for measures that serve to safeguard, preserve and restore architectural monuments, movable monuments and ground monuments. Monument protection and preservation are the responsibility of the state, districts and municipalities. The specialist authority is the Brandenburg State Office for the Preservation of Monuments and Archaeological State Museum. It advises and supports the monument protection authorities in the preservation and protection of monuments. It is the duty of every monument owner to preserve and maintain the monument. To this end, a monument preservation objective confirmed by the specialist authority can be used. It essentially comprises an analysis of the existing building, a description of planned conservation measures and their implementation. Every monument owner is entitled to the statutory tax relief if they maintain and use their monument in consultation with the relevant authorities. It is possible to apply for funding for the protection, preservation and restoration of monuments. Both the Brandenburg State Office for Monument Preservation and Archaeological State Museum and the Ministry of Science, Research and Culture offer various options for submitting applications.
