Volltext	Architectural and artistic monuments can be, for example, buildings, parts of buildings, works of art or wall paintings, but also entire streets. In the state of Brandenburg, an object is given a special value for historical, scientific, technical, artistic, urban planning or folklore reasons. These values are established using scientific methods and research and eventually lead to entry in the list of monuments. Initial information on architectural and garden monuments can be obtained from the monument database of the Brandenburg State Office for the Preservation of Monuments and the State Archaeological Museum. For legally binding or further information, you can make a request or request access to the file. Insofar as there are no legitimate interests of the owners to the contrary, you will receive access to the files or information.
