However, you are subject to a registration obligation. The competent government (see above) will inform you whether you require a permit.

Hinweise	<p>The granting of a license to practice medicine or a professional permit requires, among other things, that you have the necessary knowledge of the German language to practice your profession. The 87th Conference of Health Ministers in 2014 agreed in a key points paper on the requirements for knowledge of the German language and how this knowledge can be demonstrated. The following applies:</p> <p>1\ the required German language skills are deemed to be proven for applicants for whom the licensing authority determines without doubt that German is spoken and written fluently (e.g. as a native language) or that the completion of medical, dental, pharmaceutical or psychotherapeutic training (proof of training) was obtained in German.</p> <p>2\ proof of the required German language skills is generally deemed to have been provided if the applicant has completed at least ten years of general schooling at a German-speaking school or has completed at least three years of vocational training in</p>

3\.. if proof is not deemed to have been provided in accordance with 1. or 2. above, the language skills required for practicing the profession shall be deemed to have been proven by submission of a certificate of successful completion of the specialist language test at the Bavarian State Chamber of Dentists.

4 Specialist language tests taken at the Bavarian State Chamber of Dentists or the competent authority of another state, as well as specialist language tests from other examination institutions, are recognized as proof, provided that it is guaranteed that the examination there is equivalent to the specialist language test at the Bavarian State Chamber of Dentists. Whether this requirement is met in individual cases must be clarified in advance with the responsible professional licensing office.
