a token is required.

Local trains can be used free of charge; a fare surcharge is required for local trains subject to a surcharge.

Severely disabled persons are significantly impaired in their ability to move in road traffic if they are unable to cover distances in local traffic that are normally covered on foot without considerable difficulty or without danger to themselves or others as a result of a restriction in their ability to walk, including as a result of internal ailments, or as a result of seizures or impaired orientation.

Persons with severe disabilities who regularly require assistance when using public transportation due to their disability are entitled to have an accompanying person with them. This does not mean that the severely disabled person is a danger to themselves or others if they are not accompanied.
