Modul

Sachverhalt

architects and urban planners, i.e. those who have neither residence nor a place of business or predominant professional employment in Bavaria, may only use the professional titles if they

- either they are permitted to use the title on the basis of a regulation of a state of the Federal Republic of Germany in which they have their place of residence, establishment or predominant occupation, or
- if they fulfill the material requirements for entry in the relevant lists.

Foreign architects and urban planners who are not members of a German Chamber of Architects or who are not entered in a German list of urban planners must give prior notification of the first provision of services. They are listed in a separate register.

A certificate is issued for a period of five years for inclusion in the list of external service providers, which also states the authorization to use the professional title. The certificate may be extended for a maximum of five years upon application.

The registration committee at the Bavarian Chamber of Architects examines and decides on the entry in the lists and directories.

The right under Article 7 (3) of Directive 2005/36/EC to use the professional title of the country of establishment remains unaffected. The professional title must be used in such a way that there can be no confusion with professional titles under Art. 1 of the Act on the Bavarian Chamber of Architects and the Bavarian Chamber of Civil Engineers.
