Teaser	Investigation bodies that perform tasks in accordance with the Federal Soil Protection Act must be recognized by the competent authority.
Volltext	In Bavaria, tested and approved testing laboratories are available for the collection of solid, water and soil gas samples and their laboratory analysis. These testing laboratories are approved in accordance with the Expert and Testing Laboratory Ordinance (VSU). It regulates the requirements in accordance with Article 6 Paragraph 1 of the Bavarian Soil Protection Act (BayBodSchG) for the expertise, reliability and technical equipment of experts and investigation bodies that perform tasks in accordance with the Federal Soil Protection Act or the BayBodSchG, as well as the nature and scope of their tasks. The licensing procedure is carried out by the licensing office of the Bavarian State Office for the Environment. In the legally regulated area, soil and contaminated site investigations in Bavaria must be carried out by investigation bodies licensed in accordance with § 18

Modul
Sachverhalt

BBodSchG.

You can find investigation bodies that are licensed in Bavaria in accordance with the Expert and Investigation Body Ordinance (VSU) in the nationwide ReSyMeSa database. The Bavarian State Office for the Environment is responsible for the information on the inspection bodies approved by it.

Erforderliche Unterlagen

- Proof of appropriate liability insurance (in accordance with § 14 VSU)(see application form)
- legally binding signed declaration of commitment and consent(see application form)
- for the management and deputy management of the investigative body: certificate of good conduct for submission to an authority in accordance with Section 30 (5) of the Federal Central Register Act (Bundeszentralregistergesetz)(Intended purpose: "LfU Ref. 96A VSU Investigation Unit Company Name")Must not be older than 6 months at the time of receipt of the application.
- Organizational chart / schedule of responsibilities
- Accredited inspection body: accreditation certificate with annex
- Accredited inspection body: latest assessment report(s) of the accreditation body
- Non-accredited testing laboratory: copy of the quality management manual according to DIN EN ISO/IEC 17025 and additional documents, if applicable.

Voraussetzungen

Only bodies that fulfill the obligations under Sections 11 and 12 of the Ordinance on Experts and Inspection Bodies (VSU), have the necessary expertise and reliability and have the required personnel and equipment (inspection bodies) are approved.

Inspection bodies must have sufficient liability insurance with a minimum lump sum cover of EUR 1.5 million for personal injury, property damage and financial loss for each individual case, with at least two maximums per insurance year.

Kosten
