Teaser	The municipal authorities keep a list of eligible voters for each electoral district.
Volltext	The municipalities create a list of eligible voters for each voting or electoral district by the 42nd day before the election. The eligible voters entered in this list receive an official polling card with all information about the place and time of voting as well as a form for applying for a polling card at the latest three weeks before the election if the eligible voter wishes to vote by post. Every person entitled to vote also has the right to check the accuracy or completeness of their personal data entered in the electoral roll on working days, except Saturdays, from the 20th to the 16th day before the vote during general opening hours. In order to check the accuracy or completeness of the data of other persons entered in the electoral roll, eligible voters only have the right to inspect the electoral roll

Modul
Sachverhalt

during the aforementioned period if they can credibly demonstrate facts which may indicate that the electoral roll is incorrect or incomplete. The right of inspection does not apply to the data of eligible voters for whom an information block has been entered in the register of residents in accordance with Section 51 of the Federal Registration Act. Anyone who has not been included in the voters' register for a reason for which they are not responsible will receive a polling card on request.

If you want to know whether you are entitled to vote in your municipality (i.e. whether you are on the electoral roll), when, where and how you can apply for postal voting documents and where exactly you can vote in your municipality, please contact the electoral office in your municipality or administrative community.

Detailed information on all general questions about the individual elections, including the legal basis and the election results of previous elections and votes, can be found on the website of the State Election Commissioner at the Bavarian State Statistical Office.
