Contact persons are available at each government for questions regarding inter-municipal cooperation and funding opportunities.

Eligible costs

Funding is available for expenses that are necessary to prepare and implement intermunicipal cooperation projects. This also includes services provided by third parties (e.g. consulting, moderation, expert and planning costs), material resources and equipment (e.g. ICT) and project-related personnel expenses. Ongoing personnel and material costs can be recognized on a case-by-case basis during an introductory and pilot phase.

All Bavarian local authorities and their associations in the legal form of a legal entity under public law as well as the companies and institutions managed by them are eligible to apply.

Type and amount

The funding is granted as a subsidy. The type of grant is project funding. Funding is provided for a period of 5 year(s).

The grant is awarded by way of project funding as fixed-amount funding. As a standard grant for the implementation of a corresponding cooperation project, an allocation of EUR 50,000 is granted, but no more than 85% of the eligible expenditure incurred in accordance with the principle of economic efficiency. An increased grant of up to EUR 90,000 can be awarded to cooperation projects in sub-areas with a special need for action in accordance with the state development programme. There is no legal entitlement to funding; funding is provided within the framework of the available budget funds.
