Verfahrensablauf

Health advice is provided by the ÖGD in the district administrative authorities (state and municipal health authorities).

The local health authority is responsible for the place where you intend to focus your activities as a prostitute, provided that prostitution is permitted there. In municipalities with fewer than 30,000 inhabitants and in some other larger municipalities, prostitution is completely prohibited by law. Therefore, only health authorities in whose district there is a municipality with at least 30,000 inhabitants in which prostitution is not completely prohibited by a local prohibition ordinance are responsible.
