eligible to apply. The following criteria are used to check the comparability of the training offer:

- Nationwide availability of the training program,
- Spectrum of the further training offer (topics, target groups),
- competence-oriented design of the training courses,
- accessibility of the further training courses for employees of all child day care facilities in Bavaria (principle of openness).

An essential means of quality assurance is, among other things, permanent participation and cooperation in the Forum Fortbildung am Staatsinstitut für Frühpädagogik und Medienkompetenz (IFP). The government of Middle Franconia, in agreement with the Bavarian State Ministry for Family, Labor and Social Affairs, determines the comparability of the continuing education offerings.

Type and amount

The state grant is awarded within the framework of project funding as fixed-amount funding. Flat-rate funding is provided according to a fixed procedure.

## Voraussetzungen

Funding is conditional on the training providers practicing partnership-based cooperation at state level and on the pedagogical staff of all child day care facilities in Bavaria being given access to the training offer (principle of openness). Openness is not violated if an appropriate distinction is made in the fees between members and non-members.

Further training events on topics internal to the association or organization, association conferences, state and national congresses, sponsors' meetings, etc., as well as additional training, with the exception of further training to become a leader, cannot be funded.

Only events lasting at least six full hours per calendar day are eligible for funding. If the group of participants is the same, these can be split over two consecutive
