Sachverhalt

The grant is provided within the framework of project funding on the basis of eligible expenditure.

The amount of eligible personnel costs is based on the amount of wages and salaries actually paid. The personnel costs may neither exceed the wages and salaries and other labor costs incurred by the grant recipient nor the most favorable market rates (collective agreement of the federal states - TV-L) (prohibition of better employment).

If the funding is provided as part of co-financing, the scope of the funding must be agreed between the funding providers and may deviate from the above information.
