| Teaser                         | If you run a nursing service, are a doctor or a midwife, you can apply for a parking permit. This allows you to park in certain areas for the duration of your work assignment.                                                                                                                                                                                                                                                                                                                                                                 |
| Volltext                       | If you run a nursing service, are a midwife or a doctor, you can apply for a parking permit under certain conditions. This can entitle you, for example, to parking free of charge in restricted parking areas, in resident parking zones or in parking space management zones (parking spaces with parking meters or parking ticket machines). The exemption applies in particular to the care, treatment and pre- and post-care of patients on site. When using the exemption, other people in particular must not be endangered or hindered. |

#### Hinweise (Besonderheiten)

Important: Your exemption must be clearly displayed in the vehicle!  
 An exemption is issued for a specific vehicle and is not transferable to other vehicles. The number plate is entered in the exception approval. If you change vehicles, you can apply for a fee-based license plate change during the validity period of the special permit.
