Teaser	If you would like to work as an expert in the field of high-pressure gas pipelines, you must be recognized as an expert by the responsible body.
Volltext	<ul style="list-style-type: none"> <li>• a technical monitoring organization,</li> <li>• a public materials testing institute or</li> <li>• of the German Association of Gas and Water Specialists (DVGW).</li> </ul> <p>High-pressure gas pipelines serve public supplies. As an expert or expert, you check high-pressure gas pipes and their associated equipment before construction to ensure that they meet the quality requirements of the High-Pressure Gas Pipes Ordinance. You must also check the high-pressure gas lines for leaks, strength and the presence of the necessary safety devices before putting them into operation. You will then usually carry out a further test within one year of commissioning.</p>
Erforderliche Unterlagen	<ul style="list-style-type: none"> <li>• Certificate of successful completion of studies in a technical or scientific subject at a university, college or technical college               <ul style="list-style-type: none"> <li>• If you are resident in Germany, you usually need a certificate of good conduct to present to an authority (document type O)</li> <li>• If you are resident abroad, you need documents from your home country that prove that you have the personal reliability to perform the requested service.</li> </ul> </li> </ul>

## Modul

## Sachverhalt

- For proof of personal reliability:
- Certificate of proof of training as an expert in accordance with DVGW worksheet G 100 or proof of affiliation with an accredited inspection body (e.g. TÜV, MPA or ZÜS) for checking the technical safety of high-pressure gas lines in accordance with the High-Pressure Gas Line Ordinance
- Declaration by the employer that the expert to be recognized is in active professional life and that he/she is free from instructions from his/her superior or his/her employer in carrying out his/her inspection work,
- Valid, personal or the monitoring organization-related proof of liability insurance that protects the expert against possible claims for damages arising from their expert activity (personal injury, property damage and financial loss)
- Proof of regular participation in further training and topic-related exchange of experiences

## Voraussetzungen

- You have the necessary expertise, reliability (personal characteristics, skills, behavior) and independence.
- You have successfully completed a relevant technical or scientific degree at a university, college or technical college.
- You have specific technical qualifications for the technical tests to be carried out, in particular knowledge of the state of the art, the technical regulations and the relevant legal provisions.
- You have access to all testing equipment necessary to carry out the checks.
- You carry out the work on your own responsibility and independently.
- They carry out the activity independently of commissioning persons and of third parties, in particular of persons who are involved in the planning or construction, sales, operation or maintenance of the high-pressure gas pipelines to be tested or who are otherwise dependent on the results of the test or certificate .
- You may not take on any tasks whose completion could give rise to legitimate doubts about impartiality.
- You are reliable because of your personal characteristics and abilities as well as your behavior.
- You guarantee that the tasks assigned to you will be
