Voraussetzungen

To run an arcade, you need to have the reliability required. As a rule, you do not have this if you have committed a crime, theft, embezzlement, extortion, receiving stolen goods, money laundering, concealment of unlawfully obtained assets, fraud, breach of trust, illegal organization of a game of chance, participation in illegal gambling within the last three years before submitting the application or have been convicted of an offense under Section 27 of the Youth Protection Act. You must live in orderly financial circumstances: No insolvency proceedings have been opened against your assets or rejected due to lack of assets. The rooms intended for the operation of the trade meet the police requirements in terms of their condition and location and must be suitable for the operation of a gambling hall. Running your business does not endanger young people and there is no need to fear excessive exploitation of the play instinct. Harmful environmental effects within the meaning of the Federal Immission Control Act or a nuisance to the general public, the neighbors or an institution existing in the public interest are not to be expected either.
