| Volltext              | <p>You can obtain a parking permit from the Landesbetrieb Verkehr (LBV) for vehicles in your workshop. This can, for example, entitle you to park free of charge in restricted parking zones, in resident parking zones or in parking space management zones (parking spaces with parking meters or parking ticket machines). The exemption only applies to certain individual activities of the company. Note the exact content of the exemption. When using the exemption, other people in particular must not be endangered or hindered.</p> <p>You can apply for an exemption that is <b>**valid**</b> <b>**for up to three months**</b> . This can be an option for you, for example, if you only carry out construction or installation work on an object over a period of several days or weeks and only need an exception for certain streets.</p> <p>You can also apply for a special permit with a <b>**longer term of more than three months**</b> . These permits are particularly relevant if you have regular emergency and/or assembly work to be carried out at different locations.</p> |
