Teaser	In order to clearly assign your waste disposal sites, you must provide the establishment numbers issued by the responsible authority.
Volltext	In order to enable a clear allocation of your individual waste disposal sites, you must use the appropriate official site numbers. To do this, use the company numbers issued by the responsible authority. You enter these official company numbers in the forms of the waste verification process, such as disposal certificates, accompanying notes and acceptance forms. The company numbers also clearly assign the company locations in other waste law forms such as the waste disposal company certificate. You can obtain the company numbers from the responsible authority.
