Teaser	As an operator of a cremation facility for human corpses, you must continuously determine the air pollutant emissions for certain air pollutants through continuous measurements.
Volltext	
Erforderliche Unterlagen	Measurement report on continuous measurements Functional test and calibration reports
Voraussetzungen	They operate a cremation facility. They have installed suitable measuring devices. They have the measuring devices checked and calibrated regularly. You carry out

Modul	Sachverhalt
	the continuous measurements according to the regulations You have created a measurement report. The measurement report contains the hourly, averaged values of the measurements.
Kosten	Gebühr: Es fallen keine Kosten an
Verfahrensablauf	You carry out the continuous measurements on an ongoing basis and create a measurement report for a calendar year using the averaged hourly measured values. You must submit the measurement report together with the reports on the functional test and calibration of the measuring instruments to the responsible emission control authority by 31 March of the year following the measurement at the latest. The responsible authority will check your information. If necessary, the responsible authority will ask you for further information. Since this is a report, the authority will not issue a notice.
Bearbeitungsdauer	no
Frist	They shall submit the measurement report on the continuous measurements of emissions from cremation facilities to the competent air pollution control authority within three months of the end of each calendar year. You must keep the records of the measuring devices for 5 years.
weiterführende Informationen	<a href="https://www.resymesa.de/ReSyMeSa/Allgemein">https://www.resymesa.de/ReSyMeSa/Allgemein</a> <a href="https://www.resymesa.de/ReSyMeSa/Allgemein">https://www.resymesa.de/ReSyMeSa/Allgemein</a>
Hinweise	In terms of content, the continuous measurements should be based on the circular "Uniform Federal Practice for Monitoring Emissions" of the Federal Environment Ministry and the requirements for evaluation systems contained therein. The reports on the functional tests and calibrations of the measuring instruments for continuous measurements must comply with the requirements of the VDI 3950 Part 2 guideline. If you do not comply with the reporting obligation, do not do so correctly or do not do so on time, you are committing an administrative offence. Administrative offence proceedings will be initiated against you. This is purely a notification by you. No notice will be issued by the authorities. This

Modul	Sachverhalt
	administrative service does not apply to animal crematoria.
Rechtsbehelf	It is a notification. There is no right of appeal.
Kurztext	Submit a measurement report on continuous measurements of air pollutants at cremation facilities Operators of cremation facilities are obliged to submit annual reports on emissions from the cremation facility Measurement report by 31 March of the year following the measurements Continuous measurement of carbon monoxide content, oxygen content, smoke density and temperature of the exhaust gases hourly averaged values Operator is responsible for carrying out and reporting the measurements Operators who do not report, do not report correctly or do not report in a timely manner are committing an administrative offence Operators must keep the measurement reports for 5 years
