| Volltext | <p>The disposal of waste and thus also of organic waste from private households is the task of the body responsible for public waste disposal. In the Free and Hanseatic City of Hamburg, the Hamburg city cleaning department is responsible for this.</p> <p>In Hamburg, the organic waste bin was introduced as a standard bin, where the local conditions make it possible and no self-composting takes place. If you own a house or an apartment, you can order the green bio bin directly in the city cleaning customer portal. If you are renting an apartment or house, please speak to your landlord.</p> <p>The twelve recycling centers run by the municipal cleaning department also accept green waste from the garden. However, kitchen waste is not accepted there.</p> <p>Please note general information for the bio bin:</p> |
