Sachverhalt

Voraussetzungen

You can apply for and be granted a partial permit if the full permit for an application has not yet been granted, but the following conditions are met: there is a legitimate interest in granting a partial authorisation, the approval requirements for the subject matter of the partial approval requested are met and A preliminary assessment shows that there are no a priori insurmountable obstacles to the construction and operation of the entire plant with regard to the authorisation requirements. The sub-project meets the requirements of the Federal Immission Control Act. The sub-project does not conflict with any other public law regulations or occupational health and safety concerns. A preliminary assessment has shown that there are no a priori insurmountable obstacles to the construction and operation of the entire plant with regard to the authorisation. The preliminary overall assessment is no longer binding if the factual or legal situation or individual assessments change in the context of subsequent partial approvals and the assessment changes as a result. In this case, the responsible office can refuse approval or further partial approvals.

Kosten

Fees apply. The amount of the fees depends on the investment amount or the administrative costs. They are determined based on the Hamburg Environmental Fees Ordinance.

Verfahrensablauf

You submit the application for approval for the construction and operation of facilities requiring approval to the competent authority in writing or electronically. The responsible authority will examine your application. If necessary, the responsible authority will request further information or documents from you. The competent authority shall publish the application and the relevant documents and make it available for public inspection for one month. The competent authority shall request the authorities involved to comment on the authorisation procedure within one month. Objections will be discussed with you and those who raised the objections at a public hearing. In a simplified approval procedure or if public participation is waived, there will be no public interpretation or discussion. The
