Handlungsgrundlage	§ 58 Water Resources Act (WHG) § 54 Water Resources Act (WHG) § 11 Hamburg Wastewater Act (HmbAbwG) § 11a Hamburg Wastewater Act (HmbAbwG) § 11b Hamburg Wastewater Act (HmbAbwG)
Teaser	If you want to discharge wastewater (wastewater or stormwater) into a public wastewater plant or sewer system, you usually have to apply for a permit in advance.
Volltext	Typically, you will need a permit to initiate non-domestic wastewater, excavation water, Groundwater from contaminated site remediation or temporary drainage to prevent structural damage, Rainwater if there is a discharge limit, adversely altered rainwater. You must apply for approval from the relevant authority. You must have the permit before you start discharging the wastewater.
Erforderliche Unterlagen	The required documents depend on the type of wastewater that is to be discharged into the public wastewater plant. You can find more detailed information on the application form and the explanations on the application form.
Voraussetzungen	Permission can be granted to you if the quality and quantity of the wastewater is suitable for discharge into a public wastewater plant.
Kosten	60.00 EUR – 5,000.00 EUR
Verfahrensablauf	You submit a written application to the responsible authority. With the application you submit the other necessary documents. If necessary, the responsible

Hinweise	The discharge permit may be associated with requirements for the pre-treatment of the wastewater and self-monitoring, as well as reporting obligations that you must fulfill. Your discharge permit may be limited in time. You do not need a permit for certain discharges (e.g. domestic wastewater and rainwater that has not been adversely affected and has no discharge volume limit).
Rechtsbehelf	contradiction
Kurztext	Apply for a permit to discharge wastewater into public wastewater systems A permit for discharge into the sewer system must be present non-domestic

Modul	Sachverhalt
	wastewater, excavation water, Groundwater (from contaminated site remediation or temporary drainage) or adversely altered rainwater A permit must be available for the discharge of rainwater into the sewer system, provided that there is a discharge limit for the rainwater.
