Handlungsgrundlage	§8 paragraph 8 i. V. with Annex I No. 2.4.2 Paragraph 4 of the GefStoffV TRGS 519 Asbestos: Demolition, renovation and maintenance work
Teaser	If you want to carry out renovation or demolition work in the presence of asbestos in a weakly bound form (high fibre release), you will need a permit, which you must apply for from the responsible authority.
Volltext	You need a permit for renovation or demolition work in the presence of asbestos with high levels of fiber release. This applies in particular to work where asbestos is present in a weakly bound form or during work where a high number of asbestos fibers can be released.
Erforderliche Unterlagen	Proof of expertise Activity-related work plans/risk assessment Operating instructions Proof of precaution Personnel and safety equipment (specified in TRGS 519) Test certificates (e.g. device inspections) Proof of possible equipment leasing Proof of practical experience of the supervisor References for renovation work already carried out
Voraussetzungen	They have appropriate personnel and safety equipment. They meet the requirements of the Technical Rules for Hazardous Substances (TRGS) 519 on the handling of asbestos in order to protect people from the health hazards posed by asbestos.
Kosten	Fees apply. The amount of the fees is between 100 euros and 1,000 euros.

Modul	Sachverhalt
Verfahrensablauf	You can apply for a permit for renovation or demolition work from the responsible authority. You fill out the application form and submit it with the required documents. The responsible authority will check your application for completeness. If necessary, the responsible authority will request further documents from you. The responsible authority will decide on your application. You will receive a notification.
Bearbeitungsdauer	Once you have submitted all the required documents, processing will take 2 to 4 weeks.
Frist	You need approval before you can start demolition or renovation work.
