Teaser	If you want to operate an X-ray facility for material testing, you will need a permit from the responsible authority.
Volltext	To use an X-ray facility for material testing, you need a permit. If you want to make significant changes to the facility, you also need a permit.
Erforderliche Unterlagen	<p>Submit the following documents with the signed written application from the person responsible for radiation protection:</p> <ul style="list-style-type: none"> <li>• Plans, drawings and descriptions necessary to verify the approval requirements.</li> <li>• Information that makes it possible to check whether               <ul style="list-style-type: none"> <li>• the number of radiation protection officers necessary for the safe performance of the activity has been appointed and they have been granted the powers required to fulfil their duties.</li> <li>• it is ensured that the equipment is available and that the measures required according to the state of the art have been taken to ensure that the protective regulations are complied with.</li> </ul> </li> </ul>

## Modul

## Sachverhalt

- Information that makes it possible to check whether the radiation protection manager and the radiation protection officers are reliable and have the necessary expertise in radiation protection.
- a copy of a radiation protection instruction in accordance with the legal ordinance pursuant to Section 73, if the issuance of a radiation protection instruction is required
  - in connection with
    - for use in humans: information enabling it to be verified whether the requirements of Section 14(1) are met.
    - the use on animals in veterinary medicine: information that makes it possible to check whether the requirements of Section 15 are met.
    - the use of an X-ray device in teleradiology: information that makes it possible to check whether the requirements of Section 14 paragraph 2 are met.
    - the early detection of diseases: information that makes it possible to check whether the requirements of Section 14 Paragraph 3 Number 2 are met

## Voraussetzungen

You can only apply for approval if you are the person responsible for radiation protection according to Section 69 of the Radiation Protection Act.

You will receive approval if

- You have the necessary reliability and expertise in radiation protection
  - the necessary number of radiation protection officers have been appointed and they have been granted the necessary powers
  - other persons working there have the necessary knowledge and skills with regard to the possible radiation hazard and the protective measures to be applied
    - the necessary personnel are available
- You have the necessary equipment and have taken the necessary measures
  - it is a justified type of activity under a legal regulation or if, taking into account a published report, there are no significant doubts as to the justification of the type of activity
  - no other public law provisions conflict with
