Teaser	If you want to open a private hospital, private maternity hospital or private psychiatric clinic, you must apply for a license.
Volltext	As an entrepreneur who wants to operate a private hospital, a private maternity hospital or a private psychiatric clinic, you need a license. To obtain a license for your private clinic, you must meet personal, structural and operational-organizational requirements. The licence will not be granted to you in the following cases: If there are facts that suggest that you are unreliable for the management or administration of an institution or clinic. If there are facts that you cannot guarantee the medical or nursing care of the patients. If the descriptions and plans you have submitted for structural and other technical facilities do not comply with health and safety requirements. If the institution or clinic is to be located in only part of a building that is also occupied by other people and its operation could cause significant disadvantages or dangers for the people living in the

Sachverhalt

building. If the institution or clinic is intended to accommodate persons with infectious diseases or persons with mental disorders and its location may cause significant disadvantages or dangers for people in the vicinity. For the last two points, the local police and municipal authorities must be consulted.

Erforderliche Unterlagen

General Information: naming of the institution Naming of the body responsible for the facility if applicable, articles of incorporation, register excerpts as well as a current certificate of good conduct for the managing director and the medical director Appointment of the responsible medical director including certified copies of the license to practice medicine and the specialist certificate Named staff overview with information on the professional qualifications of the doctors (copy of the license to practice medicine) and the staff who are responsible for ensuring the nursing and therapeutic care of the patients. Information about the building: construction drawings List of rooms with room number and number of beds Functional designation of the rooms for new buildings/conversions: building permit if applicable, rental, lease or purchase agreement if necessary, approval for the misappropriation of living space More information: Declaration on the medical and nursing care "around the clock", in particular the on-call service Specific information on emergency equipment and the organization of emergency care at the clinic Information on patient catering, if necessary naming the caterer Information on who the medicines are obtained from, who disposes of the clinical waste, who does the laundry and who cleans the premises

Voraussetzungen

according to § 30 trade regulations among other things: reliability Ensuring medical and nursing care Suitability of the structural and other technical equipment Suitability of the building and location

Kosten

EUR 31.50 to 800

Verfahrensablauf

The application for the granting of a license according to Section 30 GewO is submitted to the Office of Public Health, Department of Health Care Planning. After the application has been submitted, the responsible district departments (health, construction) are informed and involved. After the exam, you will receive
