Handlungsgrundlage	<p>§ 18 (1) No. 2 Industrial Safety Ordinance (BetrSichV)</p> <p>LV 49 - Explanations and instructions for carrying out the approval procedures in accordance with Section 18 of the Industrial Safety Ordinance</p>
Teaser	
Volltext	<ul style="list-style-type: none"> • want to build and put into operation • want to change the design or mode of operation in such a way that the safety of the system is influenced • limited • limited • under conditions • with conditions
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Last name, first name, company name • Applicant's address • Contact information (email, telephone, fax) • Construction and operation • Modification and operation • Partial permission • Indication of the operating location • Subject of the application • Description of the facility • Safety equipment for toxic gases • Safety equipment for flammable gases • Description of the system technology and interaction with other systems • Piping and instrument flow diagram (P&ID flow diagram) • Safety data sheets • Description of operation • Overview plan • Site plan • Floor plan/technical plan • Ex zone plan • Explosion protection concept

Modul

Sachverhalt

- Fire protection information
- Calculation of manufacturing costs
- Other facilities
- Test report from an approved monitoring body (ZÜS).
The test report must confirm that the system can be operated safely if the measures mentioned are adhered to.

Voraussetzungen

- The system for which you are applying for permission must be a system that requires permission.
- You must build and operate filling systems using state-of-the-art technology.
- Your documents must be complete, plausible and meaningful.
- The test report from the approved monitoring body (ZÜS) must confirm that the system applied for can be operated safely if the measures specified in the documents, including the tests, are adhered to.

Kosten

Verfahrensablauf

- Submit the application for approval of the system requiring monitoring with the necessary documents, including the test report from the approved monitoring body (ZÜS), to the responsible authority informally in writing or electronically.
- An application for partial permission is possible.
- If there is a requirement for approval under the Federal Immission Control Act, you will receive the application documents back, as a permit under the Industrial Safety Ordinance will then be checked as part of the necessary approval under the Federal Immission Control Act.
- The responsible authority will make its decision after examining it and inform you of it.

Bearbeitungsdauer

Frist

- You have not started construction of the facility within two years of the permit being granted
- You have interrupted the construction of the system for two years or longer
- You have not operated the system for a period of three years
