Handlungsgrundlage	Section 23b paragraph 1 sentence 1 of the Act on the protection against harmful environmental effects caused by air pollution, noise, vibrations and similar processes (Federal Immission Control Act BImSchG) https://www.gesetze-im-internet.de/bimschg/_23b.html Hamburg Environmental Fees Ordinance https://www.landesrecht-hamburg.de/bsha/document/jlr-UmwGebOHARahmen
Teaser	If you construct or make a change to a facility that is part of an operating area and does not require a permit, and which has major accident-related effects, you will need a permit.
Volltext	If you construct, operate or modify a facility that does not require a permit and is part of an operating area and the effects are relevant to a major accident, you require a permit. If, when reviewing your previous notification of a construction or modification relevant to a major accident, the competent authority determines that your project has implications under major accident law, a permit is also required. These projects may result in the plant posing a significant risk or other requirements under emissions law no longer

Modul	Sachverhalt
	being met.
Erforderliche Unterlagen	Application for accident-relevant construction and operation or accident-relevant modification of a facility not requiring approval required drawings, plans, reports Explanations of the system Information on further documents can be obtained from the responsible authority.
Voraussetzungen	The plant does not have any harmful environmental impacts that are avoidable given the current state of technology. The plant's unavoidable harmful environmental impacts are kept to a minimum using state-of-the-art technology. They properly dispose of the waste generated during the operation of the plant. Other public law regulations and occupational health and safety concerns do not conflict with the project.
Kosten	Fees apply. The amount of the fees depends on the investment amount or the administrative costs. They are calculated based on the Hamburg Environmental Fees Ordinance.
Verfahrensablauf	If, after reviewing your notification regarding a major accident-relevant construction, operation or major accident-relevant change, the competent authority determines that your project requires a permit, you will be informed of this in writing. To apply for approval, submit a written or electronic application and attach the documents required for review. The responsible authority will examine your application and your documents. Once all the necessary documents have been submitted, they will be made publicly available and displayed for one month. During this period, persons or associations whose interests are affected by the project may present their objections to the competent authority. As part of the approval review, the competent authority also obtains opinions from other authorities concerned. As soon as the competent authority has received objections and statements submitted in a timely manner, it will decide on your application. You will receive a notification from the responsible authority.
Bearbeitungsdauer	The processing time is up to 7 months.

Modul	Sachverhalt
Frist	You need approval before you build, operate or modify the facility.
