	catalogue of the 4th Federal Immission Control Ordinance.
Kosten	Fees apply. The amount of the fees depends on the administrative effort. They are determined based on the Hamburg Environmental Fees Ordinance.
Verfahrensablauf	Report the facility to the relevant authority in writing or electronically. Attach the required documents. You must submit all required documents to the relevant authority no later than 2 months after the notification. The responsible authority will confirm receipt of your notification and the documents. If necessary, it will request further documents or information. The competent authority may impose additional orders on you to ensure that your plant complies with the obligations under the Federal Immission Control Act and that no public law regulations or interests conflict with the construction and operation of the plant.
Bearbeitungsdauer	The responsible authority will respond to your application within one month of receipt of your complete documents.
Frist	You must register the plant with the competent authority within three months of the entry into force of the respective regulation in which your plant was included in the catalogue of plants requiring approval (4th BImSchV).

Hinweise	Coal-fired power plants, industrial plants, intensive animal husbandry and similar facilities are particularly responsible for air pollution, noise, vibrations and other problems. In order to protect people and the environment from harmful environmental impacts and to prevent the occurrence of harmful environmental impacts, you need a permit under the Federal Immission Control Act (BImSchG) to set up and operate such systems. The systems that are subject to a permit requirement due to their type and size are listed in detail in the Ordinance on Systems Requiring a Permit
