## Teaser

If you need financial support to participate in school, daycare, childcare and leisure activities as well as tutoring, meals and transportation, you can receive benefits for education and participation under certain conditions.

## Volltext

You can receive financial support through the benefits of the education and participation package. This will help you to participate in school, daycare, childcare and leisure activities as well as meals and transport. The support is aimed at children, teenagers and young adults. You can receive funding if you are eligible for Benefits under the Asylum Seeker Benefits Act or you the necessary needs cannot be met from your own income and assets or that of your family. Funding is possible under certain conditions for the following areas: Excursions and one- and multi-day trips from schools and daycare centers Covering the actual costs for participation in excursions and trips lasting one or more days from schools, day care centers or child day care facilities. School trips must take place within the framework of school law regulations. The costs are covered by personalized vouchers, direct payments to the service provider or cash payments. Personal school supplies Funding for the purchase of personal school supplies, such as writing, arithmetic and drawing materials, sports clothing and school bags. The amount of funding varies between the first and second half of the school year and is adjusted annually. If you receive benefits under SGB II, SGB XII or AsylbLG, you are automatically entitled to the funding. Payment is made automatically as part of these benefits and you do not need to submit a separate application for this. You only need to apply for the grant if you do not automatically receive it for personal school needs. This can be the case, for example, for children under 7 years old or over 15 years old, as a school certificate may be required in this case. School transport If you are dependent on school transport, you can get the actual costs of attending the nearest school for the chosen

course of study reimbursed. The prerequisite for this is that the transport or the costs are not covered by third parties, such as the school authority. The state or local level regulates which distance between the place of residence or the school or institution is relevant and therefore not eligible for funding, as it does not have to be covered by public transport. Depending on the type of school, there may be differences in the relevant distance (e.g. differences between primary school pupils and secondary school pupils). Learning support Learning support to supplement school lessons in order to achieve learning goals. The prerequisite is that there are no comparable school offers or other support, such as from the youth welfare office. The costs are covered by personalized vouchers, direct payments to the service provider or cash payments. Lunch in daycare and school If lunch is offered by the daycare center or school and consumed communally, the costs can be covered by personalized vouchers, direct payments to the service provider or cash payments. Lunch within the school must be the responsibility of the school. Participation in social and cultural life A monthly grant for participation in the social and cultural life of the community. You can currently receive a grant of EUR 15 per month for actual expenses if you are under 18 years of age. This covers the costs of activities in the areas of sport, games, culture and socializing (e.g. membership fees), lessons in artistic subjects (e.g. music lessons), supervised cultural activities (e.g. museum educational offers) and participation in extracurricular leisure activities (e.g. a holiday camp during the school holidays or baby swimming). The extracurricular leisure activities must be organized and supervised by a provider. In individual cases, it may be possible to save the grant within the approval period. The saved amount can be used, for example, for a holiday camp or for equipment. Please seek advice from your responsible authority. The costs are covered by personalized vouchers, direct payments to the service provider or cash benefits.
