Teaser	According to the BAföG, training abroad can generally be funded if it is related to a course of study or schooling carried out in Germany. The Studierendenwerk in Bremen is responsible for processing applications from the entire Federal Republic for training in America - except the USA and Canada.
Volltext	The aim of training assistance under the Federal Act on the Individual Promotion of Training (Bundesausbildungsförderungsgesetz - BAföG) is to give young people the opportunity to complete a school or university education that matches their abilities and interests, irrespective of their social and economic situation. The funding should be applied for in good time, at least six months before the start of the training abroad.
Erforderliche Unterlagen	No documents required.
Voraussetzungen	Whether a study, school attendance or internship in South and Central America is supported according to the BAföG can only be determined by the Studierendenwerk Bremen due to the different requirements within the types of education. Furthermore, an entitlement to educational support depends on personal requirements such as age, aptitude and nationality. If the training abroad is carried out in connection with attendance at a higher technical college, academy or university located in Germany, half of the funding amount is generally granted as an interest-free loan. In certain cases, however, the funding is granted as a full loan.
Kosten	none
Verfahrensablauf	A written application must be made on the official forms.
