Teaser	A travel trade is one that you run if you offer certain services outside your branch or without having one (e.g. traders at markets, showmen, operators of mobile snack vans). Commercial agents, on the other hand, are not travel agents.
Volltext	In contrast to the standing trade, the travel trade usually requires a permit, a so-called travel trade card. The travel trade card can be applied for and issued for a limited or unlimited period. Note: The statutory shop opening hours are also binding for the travel trade. There are also activities in the travel industry for which no travel trade card is required. The commencement of these activities must be notified.

When verifying personal reliability, the authorising authority may, on a case-by-case basis, request other documents in addition to those listed, which are suitable for making a statement on personal reliability as an applicant. In the case of legal entities (limited liability companies, business companies, public limited companies, registered cooperatives), the application form is only to be completed for the legal entity itself. All personal documents must be submitted for all natural persons entitled to manage the business (e.g. certificate of good conduct, extract from the central trade register, personal papers). An extract from the central trade register must be requested separately for the legal entity. In the case of partnerships which are not themselves capable of being licensed as such (GbR, KG, OHG, PartG, GmbH & Co. KG), each managing partner requires permission, so that an application form and all personal documents are required for each one.
