Volltext	<p>The profession of pharmaceutical technical assistant is regulated in Germany. This means that in order to work as a pharmaceutical technical assistant in Germany, you need a state permit. With the permit, you may use the job title "pharmaceutical-technical assistant" or "pharmaceutical-technical assistant" and work in the profession.</p> <p>Even with a professional qualification from the European Union (EU), the European Economic Area (EEA) or Switzerland, you can obtain the state permit from the competent body in Germany.</p>

Modul

Sachverhalt

To obtain the permit, you must have your foreign professional qualification recognized.

In the recognition procedure, the competent body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state permit.

In addition to the equivalence of the professional qualification, you must fulfill other requirements for the issuance of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification does not originate from the EU, the EEA or Switzerland, other regulations apply.

You can also submit the application for the procedure from abroad.

Erforderliche Unterlagen

One important requirement is the equivalence of your professional qualification. The competent body compares your professional qualification from abroad with the German professional qualification as a pharmaceutical technical assistant. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.</p> <p data-bbox="507 1413 986 1447">Possible results of the examination</p> <p data-bbox="507 1491 1246 1715">If your professional qualification is equivalent, your foreign professional qualification will be recognized. The competent body can confirm the result to you in writing. You still have to fulfill the other requirements. Then you will receive permission to use the professional title "pharmaceutical technical assistant".</p> <p data-bbox="507 1760 1262 2051">Are there any significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove the professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.</p>

Modul

Sachverhalt

However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognized. You are then not allowed to work as a pharmaceutical-technical assistant:in in Germany.

However, the responsible office will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice.

In most cases you can make a compensatory measure. This will allow you to compensate for the essential differences.

Compensatory measures

There are several compensatory measures:

- Adaptation course: the adaptation course lasts a maximum of 3 years.
- Aptitude test: In the aptitude test, only those areas in which significant differences have been identified are tested. The aptitude test consists of a practical test combined with an examination interview.

You can choose between an adaptation course or a proficiency test.

If you successfully complete the compensatory measure and meet all other requirements, you will be granted permission to use the occupational title "pharmaceutical technical assistant".
