You have a foreign professional qualification as an educator? In order to be able to work in the profession in Germany, you need the recognition of your professional qualification.

Volltext

The profession of educator is regulated in Germany. This means that in order to be able to work in the profession without restrictions, you must provide proof of a specific qualification.

To prove a foreign qualification, you can apply for recognition of your professional qualification. You can also submit the application for the recognition procedure from abroad.

In the recognition procedure, the competent body compares your professional qualification from abroad with the professional qualification in the chosen federal state. The procedure is called: equivalence determination.

You will receive a decision on the result of the equivalence assessment. The notice will state your professional qualifications. If you lack professional qualifications for recognition, the notice will also state the main differences.

In addition to the equivalence of your professional qualifications, you must meet other requirements to work as an educator:

- * German language skills at the necessary level of the Common European Framework of Reference for Languages.
- * Personal suitability
- * Health suitability

You will often have to prove these prerequisites at a later date.

You may be able to work as a so-called pedagogical specialist without being recognized as an educator. You can then work in a day care center, for example. The responsible office or your employer will inform you about this possibility.
