Teaser	For a clear assignment of your waste generation facilities, you must specify the facility numbers issued by the competent authority.
Volltext	In order to enable a clear allocation of your individual waste generation facilities in waste law procedures, you can use corresponding official facility numbers. To do this, use the establishment numbers issued by the competent authority. You enter these official establishment numbers in the forms of the waste documentation procedure, such as waste disposal certificates, consignment bills and transfer bills. However, the establishment numbers also clearly assign the establishments in other waste law forms such as the waste management company certificate. You can obtain the establishment numbers from the relevant competent authority. The responsibility varies from state to state and is regulated differently for producers and disposers and according to the type of business.
Erforderliche Unterlagen	• Business registration or extract from the commercial register (copy)
Voraussetzungen	None.
Kosten	Varies depending on the responsible authority.
Verfahrensablauf	• You can apply for a waste producer number from most competent authorities via the online service. Some authorities provide other ways of applying. • The competent authority first checks whether the information is complete and plausible and whether the required documents have been enclosed. If necessary, it will request additional information and documents. • If the information and documents are complete and plausible, the authority will issue a company number

	and inform you of this.
Bearbeitungsdauer	Varies depending on the responsible authority.
Frist	Official establishment numbers must be stated in the forms of the waste documentation procedure, such as waste disposal certificates, consignment bills and transfer bills. These forms must be completed before the start of waste disposal.
